

Highway Song

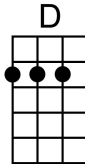

Patty Griffin and Robert Plant

G D C D
//// // // // X2

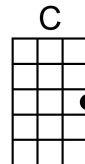

G D C D
Stars fall out of the sky, my love
G D C D
One by one as the years go by
G D C D
And one by one, all the ghosts in the night
G D C D
Whisper my name and fly away

C D
I don't wait for their return
C D D
I don't wait for their return

G D C D
Across the miles a golden flood
G D C D
Reaching far into the night
G D C D
In the dust of every highway song
G D C D
I whisper your name and fly away

C D
I will wait for your return
C D
I will wait for your return

G D C D
//// // // // X2

C D
I will wait for your return
C D G
I will wait for your return /
