G **C C**
For all I've been blessed with in my life

D **G G**
There was an emptiness in me

G **C C**
I was imprisoned by the power of gold

D **G G**
With one kind touch you've set me free

C D G C
Let the world stop turning. Let the sun stop burning

C D D
Let them tell me love's not worth going through

C D G C
If it all falls apart, I will know deep in my heart

C D D
The only dream that mattered had come true

C D G G
In this life, I was loved by you.

G **C C**
For every mountain I have climbed

D **G G**
Every raging river crossed

G **C C**
You were the treasure that I longed to find

D **G G**
Without your love I would be lost.

C D G C
Let the world stop turning. Let the sun stop burning

C D D
Let them tell me love's not worth going through

C D G C
If it all falls apart, I will know deep in my heart

C D D
The only dream that mattered had come true

C D G G
In this life, I was loved by you.

C C
I know that I won't live forever

G D D
But forever I'll be loving you.
